

Tuberose

TIGRIDIA - Mexican Shell Flower

FOR IMMEDIATE SHIPMENT

These unique but little known flowers come from the ancient gardens of Mexico. Although the individual flower lasts only one day, Tigridias are free blooming and add vivid color to your garden for many weeks. Plants are 2-2½ feet high with sabre-like foliage. Plant 4 inches deep in late spring, after soil is warm. They prefer rich soil and full sun. Store like Gladioli in winter. Varied shades of brilliant orange, scarlet, pink, white and lilac, blotched and spotted with shades of crimson and maroon. Tigridias are free from diseases and easy to grow anywhere.

Mixed only: \$1.55 per doz.;

New Belgium Tuberous BEGONIA, PICOTEE

THE GARDEN THRILL OF A LIFETIME

The peak of perfection in the development of new Hybrid Begonias! Picotee has all the elegance of form and texture of the regular Camellia-flowered types, and each petal is beautifully bordered with richly contrasting yet harmonious color. Crisp, light pastel background colors are highlighted with salmon, rose, flame and coral stitching and feathering. Picotee makes the most glorious corsages and table arrangements—and is gorgeous when associated with white Begonias in the garden.

Ismene Calathina

Hanging Basket Begonia

ISMENE CALATHINA

(PERUVIAN DAFFODIL)

This summer blooming member of the Amaryllis family will bring great pleasure to every gardener. Planted in the spring, as soon as the soil has warmed up, it will flower in 3 to 6 weeks. The clusters of pearly white flowers are borne on stems 15 to 18 inches high. After blooming the abundant glossy foliage remains in good condition until frost and adds to any foundation planting. Besides its qualities of beauty and easy growing performance, this flower has a lovely fragrance and keeps excellently as a cut flower. Dig bulbs in late fall, store at room temperature and take care not to break off the fleshy roots. Plant bulbs 8-12 inches apart.

Mammoth Bulbs: Each 75c; 3 for \$2.00; 12 for \$7.50

GIANT IMPORTED DUTCH AMARYLLIS

The newest, largest and showiest, true to color varieties imported for the great thrill they will give you. These bulbs will faithfully bloom again each year for many years to come. A few weeks after planting they bloom and keep their luxuriant foliage until frost. Full instructions shipped with each order. Each bulb will produce one or two flower stalks, bearing from 4 to 8 huge flowers each. The flowers are from 8 to 10 inches across. Height 18 to 30 in.

ACHIMENES

Available in a complete mixture of colors, from white through pink, red, purple and blue, these interesting plants resemble the Gloxinia and require about the same culture as Gloxinias and African Violets. Plant in spring in a temperature of not less than 75 degrees, one inch deep in rich dirt, wood soil, or leaf mold, sand and well rotted manure. Keep dark and barely moist until plants are up. The bulbs are small and always will be, producing nice plants up to 15 inches high. When the weather has warmed up, they can be moved to flower boxes or hanging baskets. Never let them dry out. Prefer north or east light. Achimenes are covered with flowers for 6 months. In late fall dig them up and store frost proof in sand for spring planting. Plant 5 or 6 bulbs in one pot for best show.

Mixed only, \$1.50 per dozen; 25 for \$2.95; 100 for \$10.00.

SHILKA**
(VESPER IRIS)

If Planted in Spring

Will Bloom This Summer

The graceful filigree of the branches of these Vesper Iris is studded with from 100 to 200 jewel-like flowers, truly a mammoth bouquet. The delicately colored blossoms, which at a distance resemble a multitude of gorgeous butterflies at rest with motionless outstretched wings,

vary in color, including such hues as translucent lavender with markings of mahogany, lemon, copper and orange-brown. The Shilka Iris, which are exceedingly easy to grow, bloom for a month during July and August when flowers are scarce. Vesper Iris resist both severe cold and intense heat with impunity. Be the first in your locality to grow this unique Iris.
